

## For Onward Circulation to All Health and Social Care Professionals please.

### From: Health & Social Care Professions Office

National HR Directorate | HSE Dr. Steevens' Hospital Dublin DO8 W2A8 || Clinical & Administration  
Block A HSE Merlin Park Hospital Galway H91 N973

Dear Colleagues,

I hope you are safe and well in these extraordinary times.

The National HSCP Office is pleased to advise that a **HSCP repository is now available in the HSCP Hub on HSELand**. This repository has been developed to support the Health and Social Care Professions to deliver services in the context of the COVID-19 pandemic. It is intended that this central repository will enable a sharing of COVID and non-COVID-related resources to reduce duplication of effort for HSCP frontline staff and managers at this time.

This development will be an iterative process with new content being added as it is received. The format may change over time in line with content requirements and user feedback.

### Location of HSCP Repository on HSELand

Once logged in to [www.hseland.ie](http://www.hseland.ie) (If you do not have an account, you can create an account as a staff member or 'volunteer')

Users can access the repository in three clicks:

1. Go to Hubs
2. Go to Health and Social Care Professions (Hub)
3. Click Resources to Support HSCP Delivering services in Context of COVID-19

### Structure of the Repository

Resources are available in the following **three** categories. See navigation details for more information.

- Digital/eHealth Resources for HSCP
- Clinical Resources for HSCP
- Operational Documents
